

Georgia Bamia

Georgia Bamia is an associate within our TMT department.

She undertakes legal research on various fields of law, in order to advise domestic and international clients on law issues, especially regarding data protection, but, also, employment, civil and administrative law.

Georgia also handles drafting of legal documentation, such as extrajudicial statements, letters to the Data Protection Authority, contracts etc.

TMT & Intellectual Property

Notable TMT & Intellectual Property cases

TMT Litigation

- Advised **Hedno**, the electricity network provider, on how best to manage hundreds of requests, made by data subjects, for access to files or objections to data processing.

DPO Services

- Advised **SAKA**, the Athens College Alumni Association, for the conclusion of contracts, agreements and NDA's.

Data Protection/Privacy/IP

- Advised one of the leading healthcare groups in Greece, on the digitization and operation of patients' electronic medical files. These need to comply and align with evolving Greek legislation related to electronic signatures and the electronic storage of medical files.

Employment

Notable Employment cases

- Advised one of the leading manufacturers of mobile products and accessories, in the fields of commercial and employment law in view of the Company's expansion in Greece.
